

We have met, right ? Galerie Robillard is...

... an adventure that began in 2004! Since its inception, the gallery has consistently promoted children's illustration as an art in its own right. How? By choosing to introduce the public, young and old, to the original works hidden behind illustrated books.

Through its various activities, the gallery thus carries illustration beyond the borders of the book: permanent collection of illustrations from a selection of artists, traveling exhibitions, exhibition-sales events ... The gallery is aimed at individuals and professionals, for a pleasure always shared!
